

GUIDELINE FOR NEW SME DEFINITION

**Issued by:
SME Corp. Malaysia
Secretariat to the
National SME Development Council**

October 2013

Updated: August 2016

1. Background

Since 2005, a common definition for SMEs endorsed by the National SME Development Council (NSDC)¹ has been adopted across Ministries and agencies, financial institutions and regulators involved in SME development programmes. The definition is as follows:

- **Manufacturing (including agro-based) and Manufacturing-related Services:** Sales turnover of less than **RM25 million** OR full-time employees of less than **150**
- **Primary Agriculture and Services (including ICT):** Sales turnover of less than **RM5 million** OR full-time employees of less than **50**

2. New SME Definition

Given that there have been many developments in the economy since 2005 such as price inflation, structural changes and change in business trends, a review of the definition was undertaken in 2013 and a new SME definition was endorsed at the 14th NSDC Meeting in July 2013. The definition was simplified as follows:

- **Manufacturing:** Sales turnover not exceeding **RM50 million** OR full-time employees not exceeding **200 workers**
- **Services and other sectors:** Sales turnover not exceeding **RM20 million** OR full-time employees not exceeding **75 workers**

A business can qualify as an SME if it meets **either one of the two specified criteria**, namely sales turnover or full-time employees, **whichever is lower**.

Details of the new definition are as follows:

2.1 Definition by Size of Operation

- **Microenterprises across all sectors:** Sales turnover of less than RM300,000 OR less than 5 full-time employees.
- **Table 1 on page 2 summarises the definition for the small and medium categories** for the respective sectors.

¹ NSDC which serves as the highest authority to chart the national policy on SME development is chaired by YAB Prime Minister with members from 16 Ministries and key agencies.

Table 1: Definition by Size of Operation

Category	Small	Medium
Manufacturing	Sales turnover from RM300,000 to less than RM15 million <u>OR</u> full-time employees from 5 to less than 75	Sales turnover from RM15 million to not exceeding RM50 million <u>OR</u> full-time employees from 75 to not exceeding 200
Services & Other Sectors	Sales turnover from RM300,000 to less than RM3 million <u>OR</u> full-time employees from 5 to less than 30	Sales turnover from RM3 million to not exceeding RM20 million <u>OR</u> full-time employees from 30 to not exceeding 75

- **If a business fulfills either one criteria across the different sizes of operation, then the smaller size will be applicable.** For example if a firm's sales turnover falls under microenterprise but employment falls under small, the business will be deemed as a microenterprise.

2.2 Classification of Sectors

- **'Manufacturing'** refers to physical or chemical transformation of materials or components into new products.
- **'Services'** refer to all services including distributive trade; hotels and restaurants; business, professional and ICT services; private education and health; entertainment; financial intermediation; and manufacturing-related services such as research and development (R&D), logistics, warehouse, engineering etc.
- **'Others'** refer to the remaining 3 key economic activities, namely:
 - (i) **Primary Agriculture**
 - Perennial crops (e.g. rubber, oil palm, cocoa, pepper etc.) and cash crops (e.g. vegetables, fruits etc.)
 - Livestock
 - Forestry & logging
 - Marine fishing
 - Aquaculture
 - (ii) **Construction**
 - Infrastructure
 - Residential & non-residential
 - Special trade
 - (iii) **Mining & quarrying**

Classification of economic activities for purposes of definition will be based on the Malaysian Standard Industrial Classification (MSIC) 2008 codes as per **Annex 1**. This is to ensure comparability of data from various sources and to facilitate data harmonisation across the various providers of SME statistics. However, the list of activities is **not exhaustive** and may be subject to amendments from time to time.

2.3 Details of Qualifying Criteria

- Sales turnover refers to **total revenue** including other incomes.
- **Full-time employees** include all paid workers working for **at least 6 hours a day and 20 days a month**; or at least **120 hours a month**. Full-time workers also include foreign and contract workers. However, the definition excludes working proprietors, active business partners and unpaid family members or friends who are working in the business and do not receive regular wages.
- **‘OR’ basis** means that a business will need to satisfy **either one of the two criteria** used in the definition (whichever is lower).
- If a business **exceeds the threshold** set under both criteria for **2 consecutive years** (based on its financial year/ accounting period) then it **can no longer be deemed as SMEs**. Similarly, a business that is previously large can become an SME if it fulfills the qualifying criteria of SMEs for **2 consecutive years**.
- For statistical purposes, all business establishments including foreign businesses that fulfill the SME definition **will be classified as SMEs**.

3. Scope of SMEs

In addition to the qualifying criteria i.e. sales turnover and full-time employees, there are additional conditions that must be fulfilled to be classified as SMEs:

3.1 Types of Establishment

SMEs refer to only pure business entities registered with the following bodies:

- (i) **Companies Commission of Malaysia (SSM)** either under the Registration of Business Act (1956) or Registration of Company Act (1965) or Limited Liability Partnerships (LLP) Act 2012; or
- (ii) **Respective authorities** or district offices in **Sabah and Sarawak**; or
- (iii) **Respective statutory bodies** for professional service providers.

3.2 Shareholding Structure

- (i) Companies that are **public-listed but are in the secondary bourses** such as the ACE market, Malaysia Online Trading Platform for Unlisted

Market (MyULM) or in secondary markets / SME exchanges / unlisted markets in other countries will still be considered as SMEs for as long as they fulfil the qualifying criteria.

- (ii) **Subsidiaries of firms in (i)** will also be considered as SMEs for as long as they fulfill the qualifying criteria.

Subsidiaries refer to entities where the **parent company has controlling power** over the entities either via:

- The **composition** of its **board of directors**; or
- **Has more than 50%** of its **voting power/ share capital** (excluding preference shares); or
- **Indirectly**, through another entity which is a subsidiary that is owned by the parent company (two level subsidiary). For this, again the conditions in (i) and (ii) will apply (refer to Illustration 1.1).

Illustration 1.1

These are also pre-conditions to be eligible for Government assistance programmes. It is also recommended that a **minimum local equity of more than 50%** be imposed depending on the objectives of the programmes, in order to qualify for Government assistance.

4. Exclusions

The following businesses **will not be deemed as SMEs** and also do not qualify for Government assistance:

4.1 **Public-listed companies in the main board** such as Bursa Malaysia or main bourses in other countries.

4.2 **Subsidiaries of the following entities:**

- (i) Public-listed companies in the main board.
- (ii) Large firms, multinational corporations (MNCs), Government-linked companies (GLCs), Syarikat Menteri Kewangan Diperbadankan (MKDs) and State-owned enterprises.

In this case, if the parent company in the Illustration 1.1 falls under (i) and (ii), then its subsidiaries (A and B) and their next level of subsidiaries (A₁ and B₁) are not eligible for assistance.

5. Applicability of Definition

- 5.1 The new SME definition is applied to **all relevant stakeholders** implementing SME development initiatives. These include Ministries and agencies² at the Federal and State levels (including statutory bodies and local authorities), regulators as well as financial institutions.
- 5.2 This is for **identification of eligibility status** for SME development programmes, formulation of SME policies as well as compilation of SME statistics. However, in addition to these criteria, additional eligibility criteria may be imposed by the implementing institutions depending on the scope and objectives of the SME development programmes.
- 5.3 For purposes of data collection, at all times, the relevant Ministries, Government Agencies and financial institutions should maintain **data on companies and businesses based on both criteria** i.e sales turnover and number of full-time employees. If for any particular reason the stakeholders are unable to compile or maintain both these data, then they should notify the Secretariat.
- 5.4 All stakeholders involved in SME development programmes are required to **harmonise their data collection** procedures based on the size and sectoral classifications mentioned. This will enable comparability of data across institutions and provide valuable statistics to better understand the status, issues and development needs of SMEs across all sectors.

6. Effective Date

The new SME definition will come into effect as of **1 January 2014**. This means that eligibility for SME development programmes and SME statistics compiled from 2014 onwards shall follow this new definition. All statistics compiled prior to 2014 will remain status quo and will not be affected by the new definition.

FREQUENTLY ASKED QUESTIONS (FAQ)

- 1. What is the definition of sales turnover?**
Sales turnover refers to total revenue including other incomes.
- 2. What is the definition of full-time employee?**
Full-time employees basically refer to workers who work for at least six hours a day and at least 20 days a month, including foreign and contract workers.
- 3. What if a business can fulfill only the sales turnover but not the employment criteria?**
A business will only need to satisfy one of the two criteria used in the definition in order to be classified as SMEs. The use of 'OR' basis in the definition provides greater flexibility for businesses to comply with the definition and thus be classified as SMEs.
- 4. Why change the definition?**
The current definition has been in place for the past nine years and there have been many developments in the economy such as price inflation, structural changes and change in business trends. All these factors have been taken into account in coming out with the new definition.
- 5. What happens if a business goes above or fall below a particular threshold?**
If a business exceeds the threshold set under both criteria for 2 consecutive years (based on accounting period or equivalent) then it can no longer be deemed as SMEs. Similarly, a business that is previously large can regress to an SME if it fulfills the qualifying criteria of SMEs for 2 consecutive years.
- 6. If a business can fulfill one criteria i.e sales turnover under the micro category and another criteria i.e employment under the small category, which category does the business belongs to?**
In this case, the lower category will prevail i.e business will be deemed as a micro enterprise.
- 7. What if a particular SME owns a few subsidiaries to undertake different activities i.e sales & marketing, R&D, distribution etc. Does the definition take into account the total sales turnover or employees of the SME?**
The calculation of the sales turnover and employees is based on a separate entity, not on a group basis. Therefore, as long as the businesses are registered under different entity, the subsidiaries are also SMEs if they meet the official criteria to be classified as SMEs. However, there are costs in setting up many subsidiaries such as company registration cost, accounting and auditing costs, company secretarial costs, management and other administrative costs.
- 8. Can a listed company be classified as SMEs?**
Listed companies in the main board will not be deemed as SMEs. However, firms listed in secondary bourses (such as ACE market, unlisted or SME exchange) will still be considered as SMEs if they fulfil the qualifying criteria.

9. Can revenue generating organisations such as youth associations, trade unions, consumer associations etc. be defined as SMEs?

No, because these entities are not solely established for business purpose and they often have other purposes such as to provide social welfare for its members. The new definition has specified the scope of SMEs to only cover entities established for business purposes only.

10. With the revision in the definition, how many more firms will be considered as SMEs, and what is the total number of SMEs in the country?

Our technical analysis shows that an additional 8,100 firms will enter the ranks of SMEs hence bringing the total SMEs in the country to 653,000 or 98.5% of total establishments.
